

A visit from Mrs Cannon

Mrs Cannon (Jacob's mum and Emily's auntie) came to talk to year 2 about disability. We learnt that we can all do lots of different activities but we may need to go about them in different ways to get there.

'There's always a way that helps you to do things.' Seth

'A guide dog can help a visually impaired person get where they want to go' Jacob

'Blind people use dots called braille to feel so they can read' Eva

'You can type a word on the computer and it will say it for you' Erin

'You can have a lift to go upstairs' Neve

'People can do things but in a different way' Dan

'You can drive a car in a wheelchair. You have a lift to get in' James

'A wheelchair can move up and down to reach high things' Gergo

'If you find it hard to move, you can use a machine to help you put your socks on' Harry

'Blind people may have a special machine which tells you the colour of the clothes so they match'
